

**Managing Water for Development**  
Towards a Joint Vision for Water Resources and Agriculture

**Annex 6: Progress on Key Water Resources Management Actions**

(draft for completion)

Issue	Detail	Status	Remarks
Water Resources Monitoring	Groundwater monitoring points 2005	304	
	Surface water monitoring points 2005	34	
	Meteorological stations 2005	26	Manual and automatic
	Rainfall stations 2005	109	automatic
	Wells equipped with data loggers		
Well inventory	Wells in existence		Info ranges from 45 – 200 thsd
	Wells inventoried	55,000	21,000 in 2005, in 9 basins
	Agricultural tube wells		
	Production wells urban utilities	451	
Well licensing	Applications received 2003	83	
	Licenses issued 2003	29	35%
	Applications received 2004	177	
	Licenses issued 2004	91	51%
	Applications received 2005	889	
	- for new wells for drinking water	287	32%
	- for new wells for agriculture	284	32%
	- for well deepening	224	25% (how many for agriculture?)
	- for cleaning and maintenance	89	11% (how many for agriculture?)
	Licenses issued 2005	360	41% of applications
	- for new wells for drinking water	169	59% of applications
	- for new wells for agriculture	93	33% of applications
	- for well deepening	64	72% of applications
- for cleaning and maintenance	24	27% of applications	
Enforcement	No of drilling rigs in the country 2005	304	
	No of drilling rigs licensed 2005	73	
	No of violations reported	518	
	- through hotline since Nov. 2005	103	
	Fines charged, Rial millions	7	
	Fines collected, Rial millions		
Water management	No of sub-basins	31	
	No of water management plans prepared	1	Very debated figure
	No of water management plans under implementation	1	
	No of water user groups established
